SUPPLEMENT:
SPECIALITY PRIVILEGES
AND SKILLS

Supraglottic airway devices use
Endotracheal intubation (oral, nasal)
Double lumen endotracheal intubation
Rapid sequence induction
Nasogastric tube insertion
Peripheral IV canula insertion including difficult situations
Arterial line insertion
Central line insertion
Dialysis line insertion
Procedural sedation
Cardiopulmonary resuscitation
Anaesthetic plan and conduct
Managing preanesthetic complications
Managing preanesthetic crisis
Managing difficult airway (Bougie, video laryngoscopy)
Fiber-optic intubation
Managing paediatric airway
Managing mechanical ventilation
Spinal anaesthesia
Epidural anaesthesia and CSE anaesthesia
Caudal anaesthesia
IV regional anaesthesia (Bier's block)
Peripheral nerve blocks
Labour pain management
Managing PCA
Acute pain management
Chronic pain management
