Major Achievements

- The establishment of a three-year academic link entitled “ Curriculum Development at Faculty of Medicine Higher Education Link/ University of Jordan – London School of Medicine” between the Faculty of Medicine- the University of Jordan and St. Bartholomew’s and the Royal London School of Medicine and Dentistry (London and the Bartholomew), sponsored (£25000) by the British Council in Amman through the Department for International Development (DFID), 2001-2004
- The establishment of the Medical Skills Center at the Faculty of Medicine, the University of Jordan, Amman Jordan. This involved proposal preparation and submission, equipping of the center, organizing staff development activities including the organization of workshops, short term training courses, professorship visits, and travel to academic conferences. The center was established in 2002, Models and equipment were purchased through tenders over a period of two years, and it was officially opened and made available for utilization in January 2005. The total budget is one million dollars and it was funded by the World Bank as part of the Higher Education Development Project.
- Establishment of the Molecular Biology Research Laboratory at the Faculty of Medicine of the University of Jordan which was officially opened in January 2005.
- Preparation of the self evaluation document as a requirement for accreditation of the Faculty of Medicine, 2010.
- Establishment of the Examinations office at the Faculty of Medicine, the University of Jordan, 2003
- Curriculum change in the Faculty of Medicine: I led a group of highly motivated staff members to change the curriculum from a traditional one into an integrated organ system based curriculum. The new curriculum was put in effect as of the academic year 2003/2004.
