Director, Pediatric Infectious Diseases at Hurley Medical Center
United States

Experience

Hurley Medical Center

Director, Pediatric Infectious Diseases

September 1999 - Present (24 years 9 months)

It gives me a great pleasure to write this recommendation letter to support Dr. Ola sayed in her application. I have known Dr. Ola for many years. Dr. Ola is a highly dedicating, caring and a hard working person. Dr. Ola is very motivated; she is currently in her final semester to earn her EMBA degree. She has a very pleasant personality, getting along with everyone and demonstrating a leadership character. Her communication skills are superb. Dr. Ola will be a great asset to any institution she joins. Should you have any question, please do not hesitate to contact me.

Sincerely yours,

Walid Abuhammour, MD, FAAP, FIDSA

Professor of Pedaitrics, MSU
